RE-TRACTABLE RATCHETING TIE-DOWN STRAPS

ERICKSON

Erickson's new patented design is the next step up in the Tie-Down industry. The Re-tractable's are so simple to operate – simply pull the web out to the desired length and start ratcheting until tight. To release, simply push down on the RED release button. The web not being used is stored in the centre housing so you have no web blowing in the wind. This feature also keeps the straps clean and free from oil and dirt.

ADJUSTABLE TIRE STRAPS

ERICKSON

1. Ratchet with safety snap hook makes operation easy in close quarters.
2. 2-inch cam buckle allows webbing to be shortened or lengthened. This feature ensures the strap is in the correct location on large or small tires.
3. Heavy 3-inch wide web over the top of the tire from one side to the other. The quality construction makes vehicle hauling safe and secure.
